

Aller-Calm Complex

Supports Normal Respiratory Function

DESCRIPTION

Aller Calm Complex is a proprietary blend of seven standardized herbal extracts clinically formulated and tested to promote health and normal breathing and to support clear airway passages seasonally and all year round.

FUNCTIONS

At least one in five people suffer from allergies with symptoms ranging from a simply runny nose to anaphylaxis. An allergy is a hypersensitivity of the immune system and occurs when a person's immune system reacts to normally harmless substances in the environment. The cascade of events that lead to an allergic response with allergic symptoms begins with the antibody Immunoglobulin E (IgE) and the process of mast cell degranulation that leads to the release of histamine. Research suggests that the active compounds found in Aller Calm Complex may support a healthier immune response by stabilizing mast cells and reducing histamine release. Aller Calm Complex supplies standardized levels of chebullic acid, corilagin, 1,3,6-trigalloyl glucose, gallic acid, ellagic acid, 6-gingerol, and piperine extracted from the Ayurvedic herbs:

- *Phyllanthus emblica* (fruit), also known as Indian Gooseberry or Amla.
- *Terminalia chebula* (fruit), also known as Harda or Haritaki.
- *Terminalia bellerica* (fruit), also known as Bedda Nut Tree, Bahera, or Kalidruma.
- *Albizia lebbek* (bark), also known as Indian Walnut.
- *Zingiber officinale* (root), Ginger Root.
- *Piper longum* (fruit), Indian Long Pepper
- *Piper nigrum* (fruit), Black Pepper

Research suggests that Aller Calm Complex supports healthy respiratory and immune systems and supports clear airway passages with normal breathing.

INDICATIONS

Aller Calm Complex supports a healthy respiratory system along with clear airway passages and normal breathing seasonally and all year round.

FORMULA (WW #10291)

Three Tablets Contain:

Vitamin C (as ascorbic acid).....	100 mg
Proprietary Herbal blend.....	660 mg
Quercetin.....	500 mg
MSM	1,300 mg
Stinging Nettles.....	200 mg
Bromelain.....	25 mg
Proprietary Berry Blend.....	25 mg
Feverfew	25 mg
Turmeric.....	50 mg
Ginger	35 mg
Other ingredients: cellulose, stearic acid, cellulose gum, dicalcium phosphate, silica, magnesium stearate, and pharmaceutical glaze.
